# Uncomplicated.

Since the 1970's, California families have chosen **Simple Cremation** and **Simple Burial** options.

Our simple options offer an alternative to the expensive Traditional Funeral Ceremony and give families more personal and meaningful choices to memorialize a life.

The selection of **Simple Cremation** eases the financial burden and stress that often follows the death of a friend or loved one. Inurnment and scattering choices are almost endless and offer a more personal way to memorialize a loved one.

**Simple Burial** offers an alternative for those who prefer burial over cremation but don't want the complications and expense added by a Traditional Funeral Ceremony.

# Dignified.

Families can trust Acacia Cremation and Burial Society to care for their loved one in a dignified manner, every step of the way.

Every aspect of our service, from the arrangement process to the completion of a cremation or burial, will be provided by a caring funeral professional.

Acacia Cremation and Burial Society is locally owned and operated.

*“It is Our Privilege and Honor to Serve.”*

# Affordable.

The simple options provided by Acacia Cremation and Burial Society are affordable and complete. There are never any hidden charges.

**Being locally owned and operated, we are able to remain sensitive to all aspects of loss – including price.**

We do not take advantage of families when they are grieving. We provide low-cost services and accurately quoted prices – because of this, we are recommended by coroners, hospice organizations and care facilities throughout Northern California.

***Convenient Arrangements –  
In Office, by E-Mail or Fax***
